SOFTSOUND™ VS 95
VARIABLE-SPEED
TWO-STAGE GAS FURNACE

SOFTSOUND™ VS 95

VARIABLE-SPEED
TWO-STAGE GAS FURNACE

The ultimate in climate control.

Consistent comfort.

Unlike single-stage furnaces—which heat up fast and shut down fast, going from too hot to too cold—the Comfortmaker® SoftSound™ VS 95 delivers consistent heat and overall comfort. The two-stage system operates at low heat most of the time and automatically modulates to higher heat production if the temperature drops. Run the high efficiency fan continuously to improve indoor air quality. The variable-speed motor can also help increase comfort by maximizing moisture removal⁴ during cooling (air conditioner) operation.

⁴Used with a humidity-sensing thermostat or dehumidistat.

Welcome quiet.

The variable-speed motor is much quieter than conventional motors during heat increase and decrease. Solid doors, a fully insulated cabinet, and a burner enclosure also contribute to the remarkably quiet operation of this furnace.

Triple warranties!

Every Comfortmaker unit is backed by exceptional warranties, including our No Hassle Replacement™ limited warranty*, which gives you a replacement unit if the heat exchanger should fail within the first ten years. You also get up to a 10 year[§] parts limited warranty* and a lifetime limited warranty* on the stainless steel heat exchanger. And don't forget to ask your dealer about HELP® extended service agreements for additional worry-free protection for parts and labor coverage.

*See published warranty for complete details. To learn more about all of these limited warranties, including the No Hassle Replacement limited warranty, go to Comfortmaker.com.

[§]Subject to conditions. Ten year warranty requires timely registration. See detailed additional information on back page and Warranty Certificate at Comfortmaker.com for complete details.

Standard features that set high standards.

Reliable

Direct Hot Surface Ignition System features an advanced silicon nitride igniter for greater reliability.

Efficiency savings.

At 95% AFUE,[†] the SoftSound VS 95 gives you 95 cents worth of heat for every dollar you spend. The patented RPJ[®] III heat exchanger is the key. Made of weld-free stainless steel for exceptional durability, the integrated ripple-edged design forces more heat to the outside surface area to increase efficiency and save energy. At lower speeds, the variable speed motor also adds savings on electrical power.

[†]AFUE stands for Annual Fuel Utilization Efficiency.

Higher AFUE Equals Greater Energy Savings

Percentage based on national averages; may vary according to efficiency of current unit and installation.

Four seasons of complete comfort.

- Humidifier enhances comfort by reducing dryness in the air.
- Air Cleaner filters out many indoor air pollutants so the air in your home is cleaner.
- Set-Back Thermostat allows you to customize heating and cooling levels and also save energy.
- Furnace is designed for maximum comfort and high efficiency and built rugged for years of operation.
- Air Conditioner keeps your home cool and comfortable while saving on energy.
- Evaporator/Indoor Coil matches your Comfortmaker air conditioner and furnace to ensure great performance.
- UV Lights help prevent the growth of microbes on the coils.

2

Durable

RPJ[®] III primary heat exchanger has a ripple-edged design that forces more heat to the outside surface for higher efficiencies. Made of corrosion-resistant, weld-free stainless steel.

4

Quiet

Variable-speed circulation blower motor is prelubricated, dynamically balanced and resilient mounted to reduce vibration and noise.

3

Heating On Demand

Two-stage redundant gas valve, two-speed induced draft blower assembly, and variable-speed motor modulate up smoothly when more heat is needed.

5

System Monitoring

State-of-the-art electronic controls monitor system operation for faster, easier system diagnostics.

^{*}AFUE stands for Annual Fuel Utilization Efficiency. Higher number = Greater efficiency.

[^]This Comfortmaker product carries a ten (10) year limited warranty on parts, including compressor and coils, to original homeowner if installed in an owner-occupied, single-family residence and properly registered within ninety (90) days after original installation. Otherwise, the parts warranty period is five (5) years from the date of installation. Heat exchangers may carry longer limited warranty coverage that applies to original homeowners with timely registration. (See Warranty Certificate for registration instructions. Registration not required in all jurisdictions.)

All systems tested and listed by the appropriate agencies.
